NOTE TO ALL NIOS AND ASSISTANTS

SUBJECT: PPG's Computerized Inventory of Intelligence Products

For those of you who may not know about it, PPG feeds into a computer certain information on all the non-serial products set to it for processing. PPG, in turn, can get print-outs of this information in any number of ways--by subject, geographic area, date, author, etc. PPG would be happy to make the services of this computer system available to the NIOs, from ad hoc requests to regular periodic reports. If you wish to explore this matter, please contact Room 7G00 Hqs, ext.
